PACKING&SHIPPING

PACKAGING DETAILS

Customized packing: We accept customized package, with your logo or brand printed on your label and box.

Export packing: We use export carton with shipping marks for the protection of the long way shipping.

Flywheel gear ring 8-97175903-0 with 128 teeth for ISUZU 4BC2 Its main function is to start the engine by meshing with the starter gear and transferring the power from the starter motor to the engine crankshaft, thus enabling the engine to start. During operation, the flywheel ring also ensures

smooth engine operation and reduces vibration and shock. This product is an important guarantee for normal starting and stable operation of the vehicle.
