8-97214533-0 FEUL FEED PUMP For ISUZU 4HG1-T.It is able to expel air from the fuel system before starting the vehicle, ensuring a smooth fuel supply and avoiding difficult starting or erratic running of the engine. After the fuel filter has been changed, the hand pump helps to refill the fuel and maintain system pressure. For example, after a vehicle has been parked for a long period of time, the hand pump can effectively solve starting problems caused by fuel return.
