8 - 97136574 - 0 Steering booster pump For ISUZU NPR 4HF1 models. It relieves the driver of the effort required to steer the steering wheel and makes steering easier and more agile. Whether you are travelling through narrow streets or driving and steering on motorways, the pump plays a key role. For example, when the vehicle is travelling at low speed and needs to turn at a large angle, it provides sufficient power to allow the driver to control the direction easily; when driving at high speed, it ensures the stability and precision of the steering, and improves the safety and comfort of driving.
