| 5-82550911-0 Relay (lights) 4P 24V For ISUZU NPR models. It steadily regulates the current to the vehicle's light system and ensures that the lights come on properly under different operating conditions. Whether it's the headlights for night driving, or the indicator lights, turn signals, etc., it can be precisely controlled through it. In the complex circuit environment, it effectively prevents overloading and short-circuiting, safeguards the safety and stability of the vehicle lighting system, and provides clear and reliable lighting for your driving. |
