8 - 98038884 - 0 Engine wing for ISUZU 700P . It can effectively block the mud, water, sand and gravel splashed during driving, avoiding their direct impact on the engine and reducing the wear and corrosion of the engine. In bad road conditions, such as muddy roads or rainy weather, it can guarantee the engine's cleanliness and normal heat dissipation. For example, when driving in rainy weather, it prevents mud and water from blocking the engine cooling holes, prolongs the service life of the engine, and keeps your engine in good condition all the time.
