700716-5020S Turbocharger for ISUZU 700P/4HK1 models, its main function is to significantly increase the air intake of the engine, thus increasing the power output. It makes the vehicle more responsive when accelerating and can easily cope with climbing hills or heavy loads. For example, you can overtake more confidently on motorways and still have plenty of power with a full load. It also improves fuel efficiency and reduces exhaust emissions, making it a reliable choice for enhancing vehicle performance.
