8 - 94395684 - 0 Valve Cover Gasket for ISUZU 700P/4HK1 models. It is mainly used to seal the gap between the valve cover and cylinder head to prevent oil leakage. It can effectively block dust, impurities, etc. from entering the valve chamber to ensure internal cleanliness. For example, in the vehicle driving process, to avoid engine wear due to oil leakage; in poor road conditions, can also maintain good sealing performance, to ensure the normal operation of the engine, to extend the service life of the engine.
