8-98025520-0 Air conditioner cooling grid (with electronic fan) For 700P/4HK1 models . It can quickly dissipate the heat generated by the air conditioning system, ensuring stable and efficient cooling. In hot weather, it effectively reduces the temperature inside the vehicle and provides a comfortable environment for drivers and passengers. For example, when driving for a long period of time, its excellent heat dissipation ability enables the air conditioner to continue to cool strongly. The cooperation of the electronic fan accelerates air circulation and further enhances the cooling efficiency, ensuring that the interior of the car is always cool and pleasant.
