9-00093130-0 Differential bearing 3984 for ISUZU 700P/4HK1.

This product can effectively reduce the friction and wear between gears and ensure smooth power transmission. When the vehicle is turning, it enables the left and right wheels to rotate at different speeds, enhancing handling stability. For example, under complicated road conditions, its precise work allows the vehicle to cope with curves smoothly and avoid skidding. Whether it is high speed driving or heavy transportation, this product can ensure the safety and smoothness of vehicle driving.
