8-94248702-0 Clutch master cylinder hose For ISUZU 600P/NKR/700P models. It is responsible for transmitting hydraulic pressure for smooth clutch operation. During driving, it ensures that the clutch disengages and engages accurately and makes gear changes smoother. For example, in congested road conditions with frequent gear changes, it steadily transmits pressure and reduces clutch wear. Good hose performance also improves driving comfort and manoeuvrability, safeguarding your driving safety and driving experience.
