8-98039936-0 High-pressure fuel pump hose for ISUZU 700P/4HK1. It delivers fuel from the high-pressure fuel pump to the injector nozzles precisely and efficiently. This ensures that fuel is supplied in sufficient quantities, both when the vehicle is started up quickly and when it is traveling at high speeds. For example, in the case of a full load of cargo, to ensure that the engine has plenty of power; in cold weather, but also to maintain a stable fuel transmission, so that the vehicle starts and operates normally, is to ensure the performance of the vehicle is an important component.
